Front End Developer

EMPLOYMENT SUMMARY

Specializes in front-end development from creating and developing web pages in a responsive format. Knowledge from using frameworks such as bootstrap and custom media queries.

Creatively producing clean-coded web sites with an innovative, customer service base approach for over 9 years.

April 2016 - Present - Front End Developer

Worldpay - Atlanta, Georgia

Working as the Front End Developer to help manage the landing pages, create new landing page templates for their Drupal core system. Developed new themes while using bootstrap or custom media queries for responsive development for desktop, tablet and mobile devices. Implemented responsive/mobile first for all currently used landing page using bootstrap framework with custom media queries for all current supported devices. Created a process that is held to a standard which allows us to run everything through a git process and run the repository so no file is overwritten without proper testing and code review.

March 2013 - April 2016 - Front End Developer

Pure Red - Stone Mountain, Georgia

Worked as the Lead Developer for Dollar General in creating key components for the Dollar General website and worked at a high efficiency rate with quick turnarounds to keep the Dollar General site fresh and new with daily/weekly campaigns. Created new landing pages, maintained weekly slider ads & developed new features using my knowledge of HTML, CSS, JavaScript, jQuery, Responsive/Bootstrap; developed weekly email blast for several clients while using the best practices with proper standards.

February 2008 - March 2013- Web Developer

PM Systems/ACI Worldwide - Chapin, South Carolina

I worked as a pivotal member within an organization that focuses on the design and maintenance of credit union portals. With clients from Hawaii to Texas, I provided the highest quality customer service in helping our customers become more knowledgeable on product features offered. As a member of the FI Design team, I mentored the team to utilize CSS and HTML standards to implement a more marketable approach for our clients. Since joining ACI, I have helped the company implement more diverse design to make clients stand out and maximize usability for the members of the credit unions.

An Event Apart - Boston, MA

Web Design & UX Conference

The Art Institute of Atlanta, Atlanta, Georgia

Associate in Arts; Interactive Media Design

Graduation: March 2007
